-2- Attraction Strategy for the Hotel Industry

---

Staff initiated a preliminary discussion with EDAC in May to seek feedback on the Attraction Strategy for the Hotel Industry. Staff also attended the Potential Hotel Development meeting hosted by the Aurora Chamber of Commerce on May 25, 2016. Based on the feedback received, staff are proposing a phased approach that examines key issues and feasibility followed by a second phase that considers implementation strategies based on the knowledge gained through the process. A more detailed description of the proposed activities is described below:

### **Phase 1**

#### *Contextual Information*

- Location Decisions and Factors: Research and describe key factors that drive investor location decisions and contributing factors
- Hotel Development Cost Structure: General development cost guidelines for hotel construction giving consideration to full service, select service, limited service, and extended stay properties
- Funding Opportunities: Discussion of sources of funding, interest rates, debt/equity ratios, and amortization periods
- Return on Investment Decisions: Discussion addressing capitalization rates and typical return expectations
- Municipal Fees and Charges: Discussion on the impact of municipal fees and charges on hotel cost structures
- Historic Supply and Demand Analysis: Provide a historic supply and demand analysis for the GTA overall as well as the four major submarkets (ie. Downtown, Toronto Airport, Toronto East/North, and Toronto West)
- Hotel Sales Activity Analysis: Examination of recent hotel sales in the GTA as a comparative to the costs associated with new potential hotel development

#### *Needs Assessment*

- Stakeholder Consultation: Interviews with managers of local demand generators and persons familiar with development patterns in the local market. Examine opportunities to attract corporate business, meetings and conferences, tourist and leisure demand, government/other, and discounted demand. **This may be completed in partnership with the Aurora Chamber of Commerce.**
- Economic and Tourism Overview : Assess current economic factors that may impact the development
- Historic Market Performance: Selection of appropriate market comparables, review of the existing properties and recent market performance over the past 5 years.

June 9, 2016

-3- Attraction Strategy for the Hotel Industry

- Facilities Recommendation: Identify and recommended an ideal facility program including the number, size, and mix of guestrooms, appropriate services and amenities, food and beverage options, and meeting space size and mix, as well as the appropriate type of hotel property to be developed and potential branding options
- Market Projections: Project annual supply growth for the market over the projection period based on a review of potential/proposed/under construction hotel properties in the competitive market. Projection of annual demand and ADR growth on a segment by segment basis for the competitive market based on market research and information gathered from interview with municipal officials and existing hotel operators.
- Property Market and Operating Projections: Project occupancy levels and ADR levels for project.

## **Phase 2**

### *Implementation Strategies*

- Identify implementation considerations for the Town of Aurora in order to maximize the potential of attracting a potential investor/developer
- Identify implementation considerations to maximize the project returns and identify areas where project returns may be enhanced
- Identify opportunities for targeted marketing and promotion to investors, relevant Architects, etc.

## **Next Steps**

In order to complete the above described scope of work, the Town would require the support of an external consultant with an estimated budget of approximately \$25,000. Staff are recommending that the request for funding be forwarded to Council for consideration as part of the 2017 budget process.

**RECOMMENDATIONS:**

***THAT the memorandum regarding Call for Town of Aurora Business Ambassadors be received for information.***

**BACKGROUND**

The Town of Aurora’s previous business ambassador program ran from the mid-1990’s to mid-2000’s. The Program solicited key business leaders outside the Economic Development committee to help promote Aurora as a first choice for new business and families. The program was based on the principle that existing, successful businesses are a unique touchpoint to attract new business.

After endorsement from the Economic Development Advisory Committee, staff received direction from Council to re-establish the Business Ambassadors Program in the fourth quarter of 2015. A business ambassadors program is supported through both the Business Retention & Expansion action plan, and the Economic Development Action Plan, and fits with the EDAC plans flow chart, under Business Support Services, and Enhancing Existing Resources, or Connecting Business and Residents.
